

KEEGAN SECK

OBJECTIVE

As a graduate of the UCSC Film and Digital Media degree program, I am well equipped for professional media production in any capacity. My education provides me with strong technical skills in film editing, where my experience with programs such as Adobe Premiere creates high-quality, professional content. Additionally, I worked in large teams to collaborate on complex film and live television projects, leading teams with my strong direction and organization skills. My long-term goal is to join a film or television production company to bring my powerful skill set and unique vision into the digital media age.
